Shield Environmental Services Warrington - (Senior Contracts Manager) – March 2017 – May 2020

I was head hunted by the company directors to joined Shield Environmental Services as an asbestos contracts' manager working for their new Warrington office my role at the company was visiting site producing asbestos quotations, carrying out site audits writing plans of works and dealing with the day-to-day operations of the branch and the site staff, contracts, and surveying teams.

I soon progressed at Shield Environmental Services and was offered the position of senior contracts manager where I now oversee and train junior members of staff, I also now deal with a range of key account clients for the company I now oversee many different projects and am responsible for the health and safety requirements for all members of staff from the Warrington office.

I regularly carry out both Asbestos management and Asbestos refurbishment surveys for several different clients on a varied property range I also Wright and produce the survey reports prior to these being sent back to the client.

I also carry out in-house company induction and health and safety training and UKATA asbestos awareness training from the Warrington office to ensure compliance to our staff members and our valued clients

Envirocall Ltd - (Warrington Branch Manager) - March 2016 - March 2017

I joined Envirocall Ltd in March 2016 as an Asbestos Contracts/branch Manager running their new Northwest office during my time at Envirocall I was the head of health and safety and operations for the Northwest area for asbestos surveying/removal work for various projects including the Symphony Housing Group social housing contract.

My roles at Envirocall Ltd were completing RAMS notifying asbestos removal projects to the HSE dealing with internal and external auditors and various clients within various sectors.

Asbestos Business Contractors Ltd - (Operative - Contracts Supervisor) - March 2009 to March 2016

I joined asbestos business contractors Ltd in 2009 as an asbestos removal operative and after serving a work-based apprenticeship progress through the ranks to become and asbestos removal site supervisor working and supervising asbestos removal teams nationwide on a variety of different asbestos removal projects.

I then progressed from my role as an asbestos site supervisor to and asbestos site manager working on large scale asbestos removal projects with a more client facing role including dealing with the relevant health and safety organisations and relevant governing bodies.

I currently work as an asbestos project manager which involves managing the asbestos removal works from the quotation stage through to planning stage through to completion.
